## FEARFUL LOSSES IN BALKAN WAR

Servians and Bulgarians Appear  
Worst Sufferers.

### BELGRADE GETS BAD NEWS

Semi-Official Statements Seem to Be  
for the Purpose of Preparing the  
Public for Tidings of a Disaster.  
Killed and Wounded in Last Week's  
Fighting Is Placed at About Forty  
Thousands.

London, July 7.—After ten days of  
fighting, more severe and deadly in  
character than anything in the last  
Balkan war, a little light begins to  
break upon the hitherto obscure operations.  
In the first place the Servians have  
lost more men than in the whole previous campaign and semi-  
official statements issued at Belgrade  
give the appearance of an intention  
to prepare the public for news of a  
disaster.

Desperate fighting, with fluctuating  
fortunes, is proceeding along the Var-  
dars and Bregalnitsa rivers, which  
seems to be in favor of the Bulgarians.

Important news has been received of  
the Bulgarian invasion of Servia  
through Belogradchik, about forty-  
miles northeast of Nish, Servia's  
most important fortified town. No in-  
ication is given of the strength of  
the Bulgarian column at this point,  
but the Bulgarians claim to have de-  
feated the Servians and captured five  
guns and other war material and by  
the occupation of the passes to have  
reached the road to Nish.

**Losses Appear to Be Terrible.**  
There is heavy fighting also be-  
tween the Servians and Bulgarians  
to the south of Istip and in the neigh-  
borhood of Kotchana. About 200,000  
men are engaged and the losses on  
both sides appear to be terrible.

Bulgaria's strategy appears to be  
to hold the Greeks in check, prob-  
ably with comparatively small  
forces, while she deals with Servia.  
This assumption, if correct, would  
explain the victorious advance of the  
Greek army.

Saloniki dispatches continue to re-  
port Greek victories. The Greeks are  
said to have captured sixteen guns at  
sofar. Evidence of desperate fight-  
ing is found in the arrival of 8,000  
rounded at Saloniki, taxing the town's  
commodations and resources to the  
utmost.

A conservative estimate of the  
killed or disabled in last week's fight-  
ing fixes the number at from 30,000  
to 40,000. Thousands of destitute  
refugees from the scene of fighting  
are pouring into Saloniki.

### JAKES APPEAL TO WILSON

Ian Who Has Been in Jail Two  
Years Awaiting Trial.

Los Angeles, July 7.—John Grant  
man, held in jail here pending a  
trial on a charge of having used the  
mail to defraud, telegraphed Presi-  
dent Wilson an appeal for a speedy  
trial.

In his telegram Lyman, who served  
term in the federal prison at Mc-  
Clellan's Island, Washington, after he  
had escaped from an Oakland, Cal.,  
prison, quoted from the Declaration  
of Independence and ended his ap-  
peal as follows:

"For nearly two years now I have  
been denied a hearing on the charges  
of which I am held."

### ATAL COLLISION IN PARK

ne Man Killed and Nearly Fifty In-  
jured in New Jersey.

New York, July 7.—One man was  
killed and between twenty and thirty  
persons injured in a rear end col-  
lision of two trains on a roller coaster  
Palisades park in New Jersey across  
the Hudson river from uptown New  
York. Arthur Olsen of Bronx borou-  
gh soon after being extricated from  
the wreckage. Of the injured two are  
expected to live, while a score are  
suffering from broken bones and in-  
ternal injuries.

The two trains which collided con-  
tained twenty-four persons each and  
the passengers were injured in  
a manner.

### WO DIE IN STREET DUEL

oiceman and Bootlegger Killed and  
Two Wounded.

Champaign, Ill., July 7.—Two men  
were killed and two others seriously  
injured in a duel here between the  
police and a bootlegger.

Ray Williams, the bootlegger, and  
Homas Dodsworth, a policeman, were  
killed and Albert Geller, chief of po-  
lice, and Oliver Harding, a bystander,  
were wounded.

"Conscience" Money Scarce.

Washington, July 7.—Fewer pen-  
itents, tortured by the "still small  
voice" confessed and surrendered  
mounds to the government during  
the fiscal year than for many years.  
The "conscience fund" received dur-  
ing the twelve months ended June  
1 totalled only \$2,814.44, the lowest  
amount since 1901 and comparable  
with a hundred-year average of  
\$2,804.

## LOBBY PROBERS READY FOR WORK

Interesting Sessions Are Antici-  
pated This Week.

### LAUTERBACH WILL TESTIFY

New York Lawyer Whose Name Has  
Figured So Prominently in Wall  
Street Disclosures Has Been Sum-  
moned to Appear—Muhallo Charges  
Will Be Taken Up in a Day or Two.

Washington, July 7.—Lobby investi-

gations, which grew out of the  
tariff revision bill and have gone far

beyond its realm, promise to engross

the attention of congress again this

week. The senate's investigating

committee will begin hearings that

are expected to last for two weeks or

more.

Interest will center about the ac-  
tivities of officers of the National As-  
sociation of Manufacturers, who  
have been charged by Martin M. Mu-  
hall, one of their former employees,  
with being engaged in a general at-  
tempt to influence legislation and to  
control the election of members of  
congress.

Edward Lauterbach, the New York  
lawyer, about whom centered the ex-  
traordinary activities of "David  
Lamar," has been subpoenaed to ap-  
pear and probably will be the first  
witness before the senate committee.

It was an effort to get Lauterbach  
a job with the Union Pacific railroad  
or other interests that Lamar  
schemed and planned and impersonated  
congressmen. He represented  
Lauterbach as a man "who could  
grease the wheels" at Washington.

Should the house succeed Wednes-  
day in adopting the resolution the  
Muhallo investigation will be a double-  
barreled affair, with committees  
working upon it at each end of the  
Capitol.

The senate committee will dispose  
of witnesses connected with Wall  
street activities and with the activity  
in Washington in support of tariff  
dues on sugar and wool before taking  
up the Muhallo charges.

Senator Cummins of Iowa, a mem-  
ber of the senate lobby investigating

committee, will introduce a bill de-  
signed to prevent any of the prac-  
tices disclosed during the investiga-  
tion.

The measure is aimed particularly  
at the impersonation of members of  
congress or attempts to influence  
legislation improperly. Imprisonment,  
heavy fines or both would be im-  
posed for such offenses.

### REPUBLICANS PLAN ATTACK

Senators Preparing Amendments to  
Tariff Bill.

Washington, July 7.—Republican  
members of the senate quietly have  
been preparing for some weeks for the  
attack to be made on the Underwood-  
Simmons tariff bill when it gets back  
into the senate late this week.

While a program of tariff policy has  
not been laid out by the Republicans  
leading representatives of the party in  
the senate have prepared amend-  
ments, substitute schedules and protec-  
tion arguments, directed by many of  
the important sections of the Demo-  
cratic bill.

Senator Simmons, chairman of the  
finance committee, who will bring  
the bill in from the committee with the  
seal of Democratic caucus approval  
upon it, estimates that five weeks  
will be enough to wind up general de-  
bate and discussion of the measure  
and to obtain a vote on its final pas-  
sage.

Prominent Republican senators doubt  
whether the tariff can be disposed of  
in the senate in that time.

### MOB SHOOTS NEGRO.

Jacksonville, Fla., July 7.—  
A mob took Roscoe Smith, a  
negro, to the spot where he is  
alleged to have killed Sheriff  
T. S. Cherry of Clay county,  
and, after ridding their victim  
with bullets, mutilated his  
body and cut off pieces of the  
ears for souvenirs.

### BURKE MAY RUN FOR SENATE

Former Governor, Now Treasurer, Ex-  
pected to Enter Race.

Ellen Terry and James Carew Say  
Report Is Absurd.

London, July 7.—Miss Ellen Terry  
and her husband, James Carew, who  
formerly was her leading man, deny  
that they have separated. In response  
to a message inquiring as to the truth  
of the report that a formal separation  
had been arranged the following tele-  
gram was received from them:

"Absurd. Common report is a com-  
mon liar; this is the first we have  
heard of it."

Mr. Burke is believed to be laying  
some of his senatorial wires now.

IRVING F. BUSH.

One of Several Bankers  
Who Will Talk Currency.

## NEARING END OF TARIFF WRANGLE

Senate's Measure Expected to  
Pass Eventually.

### TO FORBID OPIUM EXPORTS

Donovan of Connecticut Arouses Ire of  
Hardwick of Georgia by Voting With  
the Protectionists—Senator Lane's  
Quest for His Lost Classic—Bourne  
Still a Worker.

By ARTHUR W. DUNN.

Washington, July 7.—[Special.]—Well,  
they will soon start on their long  
journey in the senate. It may be six  
weeks or two months before they get  
over the tariff route—predictions vary  
—but we are near the end, and we will  
all get good and sick of the debate be-  
fore it comes.

There is one real satisfaction—there  
is not going to be a very long wrangle  
between the houses. The house had a  
low tariff bill; the senate went lower.  
The house is not going to stand out for  
higher rates, so that we may expect to  
see the senate bill accepted in almost  
every particular.

But all that is a long time ahead. We  
have not really started on the long  
winded senate debate, but I was merely  
saying what we may expect when  
we reach the end of the route.

Still Unsettled.

Still unsettled is the power of this  
country to do what it wants to do—  
that is, in the minds of a great many  
statesmen. In reality it has long been  
determined that the people of this country  
can do what they want to do. If they want  
to remain one nation, one nation it is; if they want to give  
the negro the vote, the law is passed; if  
they want to have a war with Spain,  
they have it, and in time to come if  
they want the women to vote there will  
be votes for women.

These few remarks are on account of  
a recent explosion in the house because  
a bill was about to pass prohibiting  
the exportation of opium. "You  
can't do that," said a stickler for the  
constitution, "because the constitution  
says no export tax shall be levied." But  
we can absolutely prohibit anything  
coming in or going out or passing  
between the states. And that's what we  
will do with opium.

Is Jerry an Outlaw?

Bold Jerry Donovan of Connecticut  
is in a fair way of becoming a political  
outlaw. Jerry flew the track  
when the Underwood bill was being  
considered and several times voted  
with the protectionists. "You are not a  
Democrat, and you ought not to be  
sitting on the Democratic side," vio-  
lently declared Hardwick of Georgia  
one day when Donovan wanted to in-  
terrupt him.

The same day Chairman Clayton  
of the judiciary committee had a  
"run in" with Donovan, and when the  
latter objected to a bill Clayton wanted  
to pass Clayton remarked, "I hope  
he feels better now."

Jerry protested to the speaker  
against Clayton's remark, and Champ  
replied that "the speaker has no control  
over Clayton when he makes  
side remarks to his cronies."

Hunting For a Speech.

"Lane's Lost Speech" or the Hunt  
For a Classic, came very near being  
the title of a congressional serial.  
Senator Lane made a speech bristling  
with warm words and classical  
and poetical quotations. Then we  
all waited to see it illumine the pages  
of the Congressional Record, but it  
could not be found. Somewhere be-  
tween Lane's delivery and the govern-  
ment printing office the Oregon sena-  
tor's speech had disappeared. But  
nothing can be permanently lost in  
congress.

Rich Men in Public Life.

It has been considered quite remarkable  
that Senator Bourne, though no  
longer on the payroll, is giving as much  
time to public service as he did when  
senator. "I am not a wealthy man,"  
said Senator Bourne, "but I have  
enough to live on and have no desire to  
devote my time to accumulating more.  
And I see no reason why a man so  
situated should not devote his talents  
and such knowledge as he may possess  
to the public good. I prefer doing something  
for the country as a whole and the people than to spend  
my time in making more money or  
idle about doing nothing."

There are not many men who look  
upon public work in the same way.

A Young New Yorker Works.

Almost on the same order might be  
classed Francis Burton Harrison of New  
York city. He remains in public life,  
although wealthy. He is second man  
on the ways and means committee and in  
line for the chairmanship in case Oscar Underwood should  
be advanced to a higher station. Harrison  
has made good as a member of the  
house.

House Furnishes Senators.

That the house of representatives is  
a school for senators is shown by the  
fact that of the ninety-six senators  
thirty-six have seen service in the  
house. Among the new senators who  
graduated from the house are Shepard  
of Texas, Burleigh of Maine, Hughes  
of New Jersey, James of Kentucky,  
Norris of Nebraska, Ransdell of Louisiana,  
Robinson of Arkansas, Shafroth of Colorado,  
Weeks of Massachusetts and Lewis of Illinois.

One Dead in Train Wreck.

St. Louis, July 7.—The fireman was  
killed, the engineer severely wounded  
and scores of passengers shaken up  
when an eastbound Baltimore and  
Ohio train was derailed at Sparks  
Ferry near Washington, Ind. The  
engine toppled into a ditch while  
running forty-five miles an hour. Four  
coaches left the track but were not  
overturned.

Broke Up the Business.

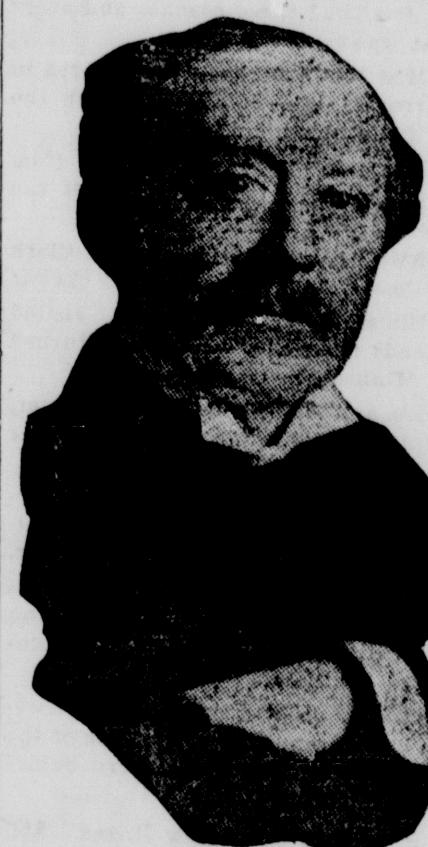

Tramp—Yes'm, I wunst had a good  
job managin' a hand laundry, but it  
fallin' on me. Lady—Poor man! How  
did it happen to fail? Tramp—She left  
me and went to her folks.—Chicago

Russia in Poland.

In Poland the Russian language is  
obligatory, and it is a penal offense to  
speak Polish in any public resort.

Recall of Governor General.

## SOLDIERS GUARD MINE PROPERTY

### RECORD TRADE BY CANALS

Commerce at Sault Ste. Marie Water-  
ways Reaches High Point.

Sault Ste. Marie, Mich., July 7.—For  
the second time this year all previous  
records for one month's commerce  
through the American and Canadian  
canals at Sault Ste. Marie is broken  
by the showing made in June, when  
freight carried through the waterways  
aggregated 12,113,613 tons. These fig-  
ures given in the statistical report  
compiled by Superintendent Sabine  
compare with a freight movement of  
11,876,195 tons in May this year and  
with 10,747,159 tons in June, 1912.

### WOMAN WOULD BE ALDERMAN

To Be a Candidate in Chicago Ghetto  
District.

Chicago, July 7.—Virginia Brooks  
Washburne, "Joan of Arc," who lost  
the fight for reform in West Ham-  
mond, wants to be the first woman  
alderman in Chicago.

She has announced she will be a  
candidate to succeed "Manny" Abrams,  
dead boss of Ghetto.

If I am elected the first thing I  
will do will be to clean up the Ghetto  
market and free it from graft," she  
said.

### Child Killed by Wagon.

Starkeweather, N. D., July 7.—Alfred  
Hunt, four years old, fell off a  
wagon directly in the path of the  
wheel, life being crushed out instantly.

Mr. and Mrs. James Towers leave  
for Richmond, Cal., today after a vis-  
it with friends and relatives in Minne-  
apolis.

Richard Rodrian, Berlin's "weather  
maker," is coming to America this  
summer, hoping to interest the United  
States agricultural department in  
his theory of weather control, accord-  
ing to recent dispatches from Germany.  
The electro-technician, who evolved  
the theory that weather changes are  
caused by electrical activity, which  
can be controlled by the use of elec-  
trical instruments, has been unable  
because of lack of funds to construct  
powerful instruments. However, he  
declares that he was responsible for  
the pleasant weather in eastern and  
southern Germany this year on Whit-  
monday and Ascension day in the face  
of official predictions of rain.

Theory in Electricity.

"I am convinced," said Herr Rodrian  
recently, "that not only storms and  
tornadoes, but floods and earthquakes,  
are caused by electrical changes in the  
air. Often floods are much greater than  
the amount of water that has fallen.  
The earth is probably inter-  
laced with canals of gas, which, when  
the pressure changes, expand, forcing  
the underground water to the surface.  
This pressure also produces earth-  
quakes. In all the disturbances in  
Europe since I began my investiga-  
tions the weather map invariably indi-  
cated the coming catastrophe. I shall  
study the American charts and shall  
prove that the same is the case there."

"These catastrophes could be avoided  
without a great outlay of capital.  
America has the duty of guarding the  
Panama canal from earthquakes and  
of saving large regions devastated by  
floods. I am trying to interest the govern-  
ment because the power of chang-  
ing the weather also means power to  
cause any desired weather, and unless  
this power is in the hands of a great  
international alliance catastrophes of  
a terrible nature might be produced."

I was once approached by some Ameri-  
cans who wished me to blight the  
American cotton crop after they had  
laid in a big stock of cotton. I was  
also asked to cause an earthquake in  
France, but I am interested in the as-  
sistance and not in the destruction of  
humanity."

Seeks to Be Vindicated.

Herr Rodrian is coming to America  
with sufficient funds to conduct experi-  
ments. He says he is seeking vindica-  
tion and not a fortune. He has been  
ridiculed for years by the Berlin news-  
papers, and, while given a hearing by  
scientists, he feels that the lack of a  
university degree has prevented fair  
trials from being made. He says he  
made a contract with one German  
university to have his theories tested  
but the university refused to do so on  
one day. He had the financial back-  
ing of a friend and got a small sum from  
the Hotel Keepers' association, which  
was interested in his efforts to bring  
good weather on holidays.

The Princes will play the Y. M. C.  
A. team at 6:30 tonight at the Koer-  
ing grounds.

Richard Rodrian of Berlin anxious to demonstrate to Government that His Theories Are Correct—Laughed at in Germany, He Says, He Will Seek Vindication Here.

Richard Rodrian, Berlin's "weather maker," is coming to America this summer, hoping to interest the United States agricultural department in his theory of weather control, according to recent dispatches from Germany. The electro-technician, who evolved the theory that weather changes are caused by electrical activity, which can be controlled by the use of electrical instruments, has been unable because of lack of funds to construct powerful instruments. However, he declares that he was responsible for the pleasant weather in eastern and southern Germany this year on Whitmonday and Ascension day in the face of official predictions of rain.

Theory in Electricity.

"I am convinced," said Herr Rodrian recently, "that not only storms and tornadoes, but floods and earthquakes, are caused by electrical changes in the air. Often floods are much greater than the amount of water that has fallen. The earth is probably interlaced with canals of gas, which, when the pressure changes, expand, forcing the underground water to the surface. This pressure also produces earthquakes. In all the disturbances in Europe since I began my investigations the weather map invariably indicated the coming catastrophe. I shall study the American charts and shall prove that the same is the case there."

"These catastrophes could be avoided without a great outlay of capital. America has the duty of guarding the Panama canal from earthquakes and of saving large regions devastated by floods. I am trying to interest the government because the power of changing the weather also means power to cause any desired weather, and unless this power is in the hands of a great international alliance catastrophes of a terrible nature might be produced. I was once approached by some Americans who wished me to light the American cotton crop after they had laid it in a big stock of cotton. I was also asked to cause an earthquake in France, but I am interested in the assistance and not in the destruction of humanity."

Seeks to Be Vindicated.

Herr Rodrian is coming to America with sufficient funds to conduct experiments. He says he is seeking vindication and not a fortune. He has been ridiculed for years by the Berlin newspapers, and, while given a hearing by scientists, he feels that the lack of a university degree has prevented fair trials from being made. He says he made a contract with one German state to stave off freezing weather an entire winter and failed to do so on only one day. He had the financial backing of a friend and got a small sum from the Hotel Keepers' association, which was interested in his efforts to bring good weather on holidays.

## NIGHT FIREWORKS ON JULY FIFTH

Are Set-Off in Koering Grounds,  
Thousands Viewing the  
Beautiful Spectacle

BAND PLAYS DURING EVENING  
Multitude Seated on Field and Sur-  
rounding Hillsides Get an  
Unobstructed View

The experiment of setting off fire-  
works in the Koering grounds proved  
an unqualified success. The ravine  
is a natural amphitheater and it gave  
seating room to thousands and per-  
mitted the partaking of automobiles  
on the hillcrest. The entire multi-  
tude had an unobstructed view of the  
celebration.

No damage was occasioned by the  
shooting off of the display. While  
the rockets sizzled up in the air and  
exploded in myriads of stars and the  
balloons rose and bombs exploded,  
the Brainerd City band gave a fine  
concert of patriotic selections.

Balloons sailed south to the vicinity  
of Crow Wing and one was picked  
up by farmer boys two miles east of  
that town. Brainerd's celebration  
as seen for miles in all directions and  
about every farmer in the country  
could see the rockets shoot up and ex-  
plode.

Police arrangements were of the  
best and a vigilant patrol was main-  
tained on the East Brainerd bridge,  
thus avoiding the congregation of a  
crowd there.

During the program of sports and  
the day fireworks on the Fourth the  
arrangements committee tried out the  
plan of roping off the areas and the  
police patrolled this and kept the  
crowd within bounds. It worked  
satisfactorily and is the first time  
in the history of Brainerd that the  
crowd was able to see everything and  
was kept within bounds.

There were a few explosions of  
temper on the part of exuberant cele-  
brants of the Fourth, but they were  
peaceably quieted down by the police.  
Extra men were on duty.

The celebrations in Crow Wing  
county were of the safe and sane variety  
and to date no accidents have been  
reported.

Brainerd's celebration, covering  
July 4 and 5, turned out to be a  
most successful one and all persons  
and organizations are to be com-  
mended for assisting to make it so.

### Notice to Eagles

Regular meeting of the Aerie will  
be held on Tuesday evening, July 8th.  
Initiation, refreshments, etc. Be sure  
and be on hand.

HENRY KRAUSE,  
Secretary.

### Notice M. B. A.

All members of the M. B. A. are re-  
quested to be present at the lodge  
meeting Tuesday evening, July 8.  
The decree of court will be read and  
the rate question discussed. Ice  
cream and cake will be served.

MARY A. DYKEMAN,  
Advt.—29 12 President.

### GIRLS

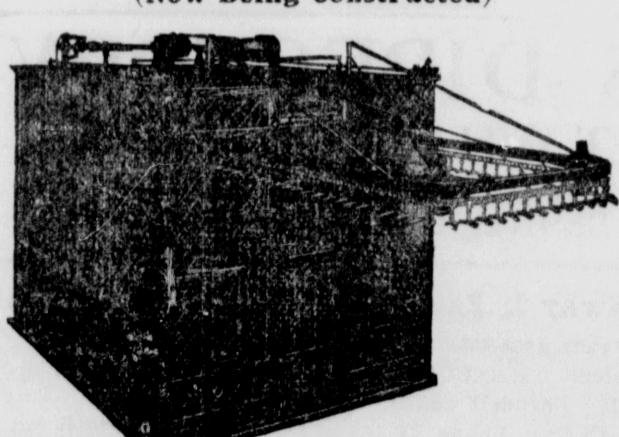

wanted to work in Brainerd Steam  
Laundry. Now ready to start.—Advt.  
25tf

No person need hesitate to take Foley  
Kidney Pills on the ground that  
they know not what is in them. Foley  
& Co. guarantee them to be a  
pure curative medicine, specially pre-  
pared for kidney and bladder ail-  
ments and irregularities. They do  
not contain habit forming drugs.  
Try them. For sale by H. P. Dunn.  
—Advt. mwf.

### INSPIRATION.

We are always inspired, but we  
incessantly stifle the inspiration.  
God does not cease to speak, but  
the noise of the creatures without  
and of our passions within confuses  
us and prevents our hearing. We  
must silence every creature, includ-  
ing self, that in the deep stillness of  
the soul we may perceive the ineffable voice.—Fenelon.

## BRAINERD MODEL LAUNDRY (Now Being Constructed)

### Our Dryroom

This is a highly heated cabinet in which we dry your collars, cuffs, shirts and other starched goods. A motor drives the conveyor on which your laundry hangs. One revolution of the chain is sufficient to dry and sterilize your clothes. Steam heated, and hence no chance to scorch anything.

Just another of the many devices we will employ in our efforts to do your laundering well and to safeguard it in the doing.

### "TOM, THE PEEPER"

Southeast Brainerd Patrolling Streets  
and Alleys Looking for  
the Disturber

Forty young men armed with clubs  
and brickbats have patrolled Southeast  
Brainerd in an effort to get a  
"Peeping Tom," but he is as elusive  
as ever.

The disturber has been looking in  
windows and prowling through alleys, alarming women and children.

### ELK PASSED AWAY

Body of John Armstrong to Arrive  
on Tuesday Afternoon Train  
From Fargo, N. D.

Fargo, N. D., lodge no. 226 of the  
Elks has notified the local secretary  
Frank G. Hall, of the death of John  
Armstrong, aged 45, a former resi-  
dent of Brainerd and that the remains  
will be sent to Brainerd on the  
Tuesday afternoon train. Burial is  
to be in Evergreen cemetery. Several  
Elks from Fargo will accompany  
the remains.

It is said the deceased had a relative  
or relatives in Brainerd.

### CROSBY TO HAVE "WAY OF LIGHT"

Five Blocks of Business Section to  
be Illuminated by the Public Improvement

### WISH SALOON LICENSE RAISED

Numerous Petitions Being Circulated  
—Hale's Second Addition  
on the Market

Crosby, Minn., July 5—H. J. An-  
derson, of Virginia, is erecting a roller  
skating rink on the southeast corner  
of Cross street and First Avenue  
south. The building will measure  
47 by 100 feet.

Petitions are being circulated that  
the mayor and council have strictly  
enforced the Sunday closing law and in  
fact all provisions dealing with the  
regulation of saloons.

A "Way of Light" is now assured in  
Crosby. Every local lot owner has  
given his hearty assurance of  
support for the innovation. The  
ornamental lamp posts surmounted  
by five lights will extend from the  
county road on Main street to First  
avenue east and thence a block to the  
Soo depot. The entire "White Way"  
will be five blocks long.

Some agitation has been started  
in Crosby for the raising of the sal-  
loon license. The citizens favoring it  
assert that Deerwood, a smaller town,  
derives \$2,000 a year from its  
two saloons. Crosby, a much larger  
town, gets but \$1,000 from its one  
saloon.

The Adams baseball team of Duluth,  
played at Crosby on the Fourth.  
Arthur J. Harker, of Duluth, was  
in Crosby during the week looking  
after his range interests.

Miss Gertrude Flynn, of Duluth,  
was the guest of Mrs. J. S. Lutes.

Mr. and Mrs. H. Long, of Staples,  
were guests of Mr. and Mrs. Charles  
S. Roulo on the Fourth.

J. P. Cosgrove, of the Crosby Ex-  
ploration company, who has been vis-  
iting relatives in Eau Claire, Wis.,  
returned home Friday.

The boarding house and store of  
Mrs. Kane on First street south is  
being plastered.

Arthur Olsson, of Landskrona,  
Sweden, is visiting his brother, Bruno  
Olsson.

The Finn bath house boasts a  
whistle.

W. S. Pitt is the agent for Hales  
Second addition to Crosby, newly  
platted. There are 96 lots in the  
subdivision. The First addition, ex-  
clusively handled by Mr. Pitt, has  
been practically sold out. There  
were 156 lots in the First addition  
and many homes now dot the tract.

Mrs. H. Ingalls on Tuesday enter-  
tained a party of friends.

The members of the Friday Study  
club were the guests of Mrs. H. In-  
galls this week and spent an enjoy-  
able afternoon.

Miss Leila Pitt, of Oelwein, Iowa,  
is the guest of her parents, Mr. and  
Mrs. W. S. Pitt.

## BRAINERD WINS TWO FROM AKELEY

Lumber Town Fails to go Home with  
the Bacon—Brainerd Plays a  
Fast Game

### BUSH AND COOK STAR PITCHERS

First Game Brainerd 9, Akeley 1—  
Second Game Brainerd 10,  
Akeley Blanked

Brainerd won the two games of the  
series from Akeley, the first by a 9  
to 1 score on Saturday and the second  
by a 10 to 0 score on Sunday. Large  
crowds saw both games.

Hurling his spit ball most effectively,  
Richard Bush, brother of the great  
Leslie Bush, of the Philadelphia Athletics,  
led Brainerd in its victorious attack on Akeley Saturday evening.  
For six innings the score was tied  
1 to 1, Bush striking out in that period  
6 men and being supported by  
several fielding.

Then Brainerd fell on Duffy of  
Akeley and hammered the imported  
pitcher for 4 runs. He was succeeded  
by Newman and before he could stay  
the batteing bee 3 more runs rolled in.  
The final figures Brainerd 9, Akeley 1.  
The box score.

400. Umpires Hall and Kunitz.

Akeley was shut out in its second  
game with Brainerd Sunday after-  
noon, the final score reading Brainerd  
10, Akeley 0. Cook, the former St.  
Paul man, pitched fine ball for Brainerd,  
allowing but 2 hits. He struck out  
4 men, made a run, got 2 hits and  
6 assists.

Brainerd pounded Bergerson and  
Broker out of the box, gaining 10  
runs, after which Newman pitched 2  
innings and checked the harvest of  
run-getting. Features were the fine  
fielding and team play of Brainerd.

### YOUNG PEOPLES SOCIETY

Entertained This Evening by Mr. and  
Mrs. Chas. Ellison and Mr. and  
Mrs. Albert Ellison

The Concordia Young Peoples so-  
ciety of the 7th St. Norwegian Luther-  
ian church will be entertained to-  
night by Mr. and Mrs. Chas. Ellison  
and Mr. and Mrs. Albert Ellison. Re-  
freshments will be served. Every-  
body is welcome. The following pro-  
gram will be rendered:

Piano solo ----- Miss Thelma Reis

Vocal solo ----- Miss Myrtle Olson  
of St. Cloud

Recitation ----- Mrs. A. F. Sorenson

Vocal solo ----- Miss Anna Michaelson

Violin solo ----- Miss Jennie Zakariason

Recitation ----- Mrs. Ed. Clark

Vocal solo ----- Miss Myrtle Olson  
of St. Cloud

Piano solo ----- Miss Mabel Rosenberg

Little Falls 4, St. Cloud 0  
Little Falls, July 7—A seven inn-  
ing game played on a heavy field was  
won by the Little Falls team on the  
Fourth from St. Cloud by a score of  
4 to 0. Hard and opportune hitting  
sent runners over the plate for Little  
Falls while Dominick held the Saints  
scoreless. In the first inning St.  
Cloud filled the bases with only one  
out but Dominick pitched himself  
out of the hole. Twice later in the game  
he was in a tight place but when  
hits meant runs he was invincible.

Little Falls Wins 3 from St. Cloud

Little Falls, July 7—Little Falls  
made it three straight from St. Cloud  
today by taking the long end of the  
score in game this afternoon, score  
7 to 5. Dretchko pitched for St.  
Cloud, allowing 13 hits, Butler for  
Little Falls allowed 8 hits. A home  
run by Butler and sensational run-  
ning catches by Reque and Brandell  
of the Little Falls team were the fea-  
tures of the game.

**DEVELOPMENTS OF  
WEEK ON RANGE**First South Range Shipment of 7 or 8  
Cars Made from the Barrows  
Mine at Barrows**DRILLERS CELEBRATE FOURTH**

Adams Mine Drifting—Vermes-Cuyuna Mining &amp; Development

Drilling 11th Hole

There are two holidays observed by all drillers of the Cuyuna range and those are the glorious Fourth and Christmas and accordingly it is doubtful if a single drill on the range was active on the Fourth and probably will not resume until July 7.

There are heard occasionally the stories of retrenchment in the railroad world, but the work of drilling on the range and with it the accompanying mining goes on as actively and undisturbed as ever. The iron ore field of the Cuyuna has too firm a foundation to be disturbed by any flurries.

On the south range the first shipment of ore has been made by the Barrows mine of the Virginia Ore Mining company, the subsidiary of the M. A. Hanna Co. Quietly and without any flourish the Northern Pacific railway hauled 7 or 8 cars to Superior. This was a test shipment and will be shortly followed by regular shipments.

The Northern Pacific is massing at Deerwood over 100 ore cars and at Brainerd 50 or more preparatory to the opening of its shipping season.

The Cuyuna-Mille Lacs mine continues shipping steadily on the north range. From 5 to 7 cars are shipped on the Cuyuna Northern railway to Deerwood and thence on the Northern Pacific.

The force of miners is soon to be increased and ore hoisting will be started from both levels.

The Cuyuna-Duluth mine at Iron-ton is drifting at its 200 foot level. The large boiler plant is working satisfactorily. It is hoped to make the first shipment from this mine early this month.

The Hale-Bradley company of Deerwood has two drills at work. One was recently moved from Loerch to section 30, township 47, range 29. A drill will be placed west of Brainerd shortly.

The Duluth Diamond Drilling company is drilling in section 19, township 46, range 29 near the property of the Gopher Iron company.

Cole &amp; McDonald have a drill at work near Brainerd in section 21, township 45, range 30. Another drill is in the vicinity of manganese.

C. W. Potts recently placed a drill in section 20, township 47, range 28.

Paul M. Hale, of Deerwood, has given a release of option to Lizzie Berg and John L. Berg covering the southeast quarter of section 9, township 43, range 32.

John P. Holligan, Wm. Rock and John Nolan have assigned to John J. McAuliffe an undivided 1/8 interest in the option and lease covering the northwest quarter of the northwest quarter of section 27, township 47, range 29.

An assignment of option contract and lease of great interest is that filed this week wherein the opening paragraph recites that John T. Jones is indebted to Charles L. Dennisson, of 14 Wall street, New York, for \$1,000, represented by promissory note dated June 14, 1913 and that for the purpose of securing payment Jones transferred as collateral security all right and interest to the following contracts and leases affecting the east half of the southeast quarter and the west half of the southeast quarter of section 22, township 14, range 29 including (1) the agreement with lease attached dated December 1, 1911 between E. G. Hunter and A. J. Harker. (2) The agreement with lease attached dated May 23, 1913 between Arthur J. Harker and William Sutton. (3) The agreement with lease attached dated May 31, 1913 between William Sutton and John T. Jones. (4) The agreement dated May 31, 1913 between John T. Jones and William Sutton. Also the following described agreements and leases affecting the northeast quarter of section 27, township 47, range 29, being (1) the mining lease dated August 8, 1907 between George E. King and Franklin W. Merritt. (2) The agreement dated June 26, 1912 between George E. King and the North Star Iron Mining company. (3) The mining lease dated August 30, 1912 between George E. King and the North Star Iron Mining company. (4) The mining lease dated September 17, 1912 between the North Star Mining company and the Duluth Moctezuma Mining company. (5) The agreement with mining lease attached dated May 31, 1913 between the Duluth Moctezuma Mining company and John T. Jones. Upon payment of the \$1,000 the interest and assignment shall become null and void, but prior to the repayment and after payment becomes due, said Charles L. Dennisson of New York city shall have the same rights under said agreement as if he were owner by absolute assignment.

Railway building is progressing favorably on the range. The Soo line is building to the Iron Mountain Mining company property. The Minnesota &amp; International railway is building its cutoff from Brainerd to Leaks, thus doing away with the turning of passenger trains made necessary under the old arrangement.

In the district court were heard various appeals from commissioners' awards made during condemnation proceedings brought by the Cuyuna Northern railway company in extending its line south from Deerwood to Oreland and north from Deerwood to the Cuyuna-Mille Lacs Co. mine. A

body is being uncovered and it is expected that shipments will soon be made.

The Iron Mountain mine is at work on its three compartment shaft.

Contractor Buzzo, of Ely, has finished his job of sinking at the Adams mine at Oreland and the Adams people are now in charge and engaged in drifting. The mine will ship this fall.

At the Pittsburg Steel Ore company hydraulic plant at Little Rabbit lake streams of water electrically pumped are being forced against the banks and the overburden is being sucked away by sand suckers of huge capacity. The plant is working in fine shape under the management of Sup't P. H. Nelson. Last week Pittsburg Steel Co. officials from Pittsburgh including Wallace H. Rowe, Emil Winter, J. A. McCook and others visited the hydraulic mine.

It is reported that the Duluth-Brainerd Iron company, which has had three drills working its property in section 32, township 47, range 29, will shortly commence sinking a shaft.

There is a report current that the Longyear company may soon develop its holdings in section 12, township 45, range 30 east of Brainerd.

The State Exploration company has four drills at work, C. W. Potts of Deerwood six drills, the Gaylord &amp; Guith company eight drills, the Helmer Exploration Co. six drills. William Seaford, superintendent of the Helmer Exploration company, recently hauled out a lot of casing with an automobile, working the stunt successfully by dragging the pipe.

The Vermes-Cuyuna Mining &amp; Development company is on its 11th hole and struck ore at 35 feet, says its president. The hole is now down 75 feet and assays yield good figures. A large proportion of the officers and stockholders are Brainerd people. The property of the company on the north range is surrounded by proven ore bodies.

The Hale-Bradley company of Deerwood has two drills at work. One was recently moved from Loerch to section 30, township 47, range 29. A drill will be placed west of Brainerd shortly.

The Duluth Diamond Drilling company is drilling in section 19, township 46, range 29 near the property of the Gopher Iron company.

Cole &amp; McDonald have a drill at work near Brainerd in section 21, township 45, range 30. Another drill is in the vicinity of manganese.

C. W. Potts recently placed a drill in section 20, township 47, range 28.

Paul M. Hale, of Deerwood, has given a release of option to Lizzie Berg and John L. Berg covering the southeast quarter of section 9, township 43, range 32.

John P. Holligan, Wm. Rock and John Nolan have assigned to John J. McAuliffe an undivided 1/8 interest in the option and lease covering the northwest quarter of the northwest quarter of section 27, township 47, range 29.

Dennison, of 14 Wall street, New York, for \$1,000, represented by promissory note dated June 14, 1913 and that for the purpose of securing payment Jones transfers as collateral security all right and interest to the following contracts and leases affecting the east half of the southeast quarter and the west half of the southeast quarter of section 22, township 14, range 29 including (1) the agreement with lease attached dated December 1, 1911 between E. G. Hunter and A. J. Harker. (2) The agreement with lease attached dated May 23, 1913 between Arthur J. Harker and William Sutton. (3) The agreement with lease attached dated May 31, 1913 between William Sutton and John T. Jones. (4) The agreement dated May 31, 1913 between John T. Jones and William Sutton. Also the following described agreements and leases affecting the northwest quarter of the northeast quarter of section 27, township 47, range 29, being (1) the mining lease dated August 8, 1907 between George E. King and Franklin W. Merritt. (2) The agreement dated June 26, 1912 between George E. King and the North Star Iron Mining company. (3) The mining lease dated August 30, 1912 between George E. King and the North Star Iron Mining company. (4) The mining lease dated September 17, 1912 between the North Star Mining company and the Duluth Moctezuma Mining company. (5) The agreement with mining lease attached dated May 31, 1913 between the Duluth Moctezuma Mining company and John T. Jones. Upon payment of the \$1,000 the interest and assignment shall become null and void, but prior to the repayment and after payment becomes due, said Charles L. Dennison of New York city shall have the same rights under said agreement as if he were owner by absolute assignment.

Railway building is progressing favorably on the range. The Soo line is building to the Iron Mountain Mining company property. The Minnesota & International railway is building its cutoff from Brainerd to Leaks, thus doing away with the turning of passenger trains made necessary under the old arrangement.

In the district court were heard various appeals from commissioners' awards made during condemnation proceedings brought by the Cuyuna Northern railway company in extending its line south from Deerwood to Oreland and north from Deerwood to the Cuyuna-Mille Lacs Co. mine. A

jury believed to be the first in the state, reported in Judge W. S. McClellan's court a verdict under the 5-6 law, the ten men awarding Judge J. T. Hale, of Deerwood, \$1,500 damages occasioned by the building of the Cuyuna Northern through his country estate on Reno lake south of Deerwood.

At the Pittsburgh Steel Ore company hydraulic plant at Little Rabbit lake streams of water electrically pumped are being forced against the banks and the overburden is being sucked away by sand suckers of huge capacity. The plant is working in fine shape under the management of Supt. P. H. Nelson. Last week Pittsburgh Steel Co. officials from Pittsburgh including Wallace H. Rowe, Emil Winter, J. A. McCook and others visited the hydraulic mine.

It is reported that the Duluth-Brainerd Iron company, which has had three drills working its property in section 32, township 47, range 29, will shortly commence sinking a shaft.

There is a report current that the Longyear company may soon develop its holdings in section 13, township 45, range 30 east of Brainerd.

The State Exploration company has four drills at work, C. W. Potts of Deerwood six drills, the Gaylord & Guith company eight drills, the Helmer Exploration Co. six drills, William Sealfield, superintendent of the Helmer Exploration company, recently hauled out a lot of casing with an automobile, working the stunt successfully by dragging the pipe.

The Vermes-Cuyuna Mining & Development company is on its 11th hole and struck ore at 35 feet, says its president. The hole is now down 75 feet and assays yield good figures. A large proportion of the officers and stockholders are Brainerd people. The property of the company on the north range is surrounded by proven ore bodies.

The Hale-Bradley company of Deerwood has two drills at work. One was recently moved from Loerch to section 30, township 47, range 29. A drill will be placed west of Brainerd shortly.

The Duluth Diamond Drilling company is drilling in section 19, township 46, range 29 near the property of the Gopher Iron company.

Cole & McDonald have a drill at work near Brainerd in section 21, township 45, range 30. Another drill is in the vicinity of manganese. C. W. Potts recently placed a drill in section 20, township 47, range 28.

Paul M. Hale, of Deerwood, has given a release of option to Lizzie Berg and John L. Berg covering the southeast quarter of section 9, township 43, range 32.

John P. Holligan, Wm. Rock and John Nolan have assigned to John J. McAuliffe an undivided 1/8 interest in the option and lease covering the northwest quarter of the northwest quarter of section 27, township 47, range 29.

An assignment of option contract and lease of great interest is that filed this week wherein the opening paragraph recites that John T. Jones is indebted to Charles L. Dennison, of 14 Wall street, New York, for \$1,000, represented by promissory note dated June 14, 1913 and that for the purpose of securing payment Jones transfers as collateral security all right and interest to the following contracts and leases affecting the east half of the southeast quarter and the west half of the southeast quarter of section 22, township 14, range 29 including (1) the agreement with lease attached dated December 1, 1911 between E.
